SUMMARY

Frontend Developer with **10 months of experience** crafting user-friendly web applications. Passionate about building pixel-perfect and well maintained web applications. **Led a 3-person frontend team** at a fast-paced startup.

WORK EXPERIENCE

Frontend Intern, SarvamAI

June 2024 - Feb 2025

- Led the development of the Enterprise Reasoning user interface, building a dynamic chat component that updated live, showing distinct phases of AI processing and presenting the final result with embedded charts, enabling onboarding of Niti Aayog as a client.
- Implemented ReactQuery for client-side data fetching with caching, revalidation, and enhanced error handling with retry mechanisms.
- Developed debounce functionality for API calls to provide context-aware prompt suggestions based on user input.
- Developed an analytics dashboard featuring customizable charts with resize, reposition, and transformation capabilities.
- Enhanced Shadcn components to align with our UI design specifications.

Freelance Frontend Developer

March 2025 (1 month)

- Developed pixel-perfect web pages from Figma designs, ensuring a high-fidelity and visually appealing user experience.
 - Implemented server-side and client-side page rendering strategies, optimizing performance and SEO. Leveraged React Query for efficient client-side data fetching and utilized server-side data fetching techniques.
 - Configured Payload CMS to empower clients with easy content updates, enabling them to manage website content efficiently.
 - Engineered a complex filtering system allowing users to filter properties based on size, rooms, location, and budget, enhancing the user experience and property discovery.
 - Integrated i18n and l10n support, enabling the website to be localized for Turkish, Arabic, Russian, and French speakers.
-
